

## AI-Supported Tools & Instruction Parent/Guardian Opt-Out Form

**Student Name:** \_\_\_\_\_

**Parent/Guardian Name:** \_\_\_\_\_

Everybody's Academics (EBA) may incorporate **AI-supported accessibility and learning tools** to support instruction, organization, communication, and skill development. At EBA, AI is used thoughtfully in alignment with our mission to expand access to learning, increase independence and opportunity for individuals with diverse needs, and responsibly explore innovations that may improve lives and reduce educational disparities across communities.

These tools may include **tools such as, but not limited to:**

- Advanced speech recognition and dictation tools
- Natural-sounding voice synthesis and reading supports
- Writing support tools that assist with sentence structure and organization of ideas
- Executive functioning tools that help students plan, organize, and summarize information
- AI-supported tutoring or explanation tools that help clarify concepts and reinforce learning

In addition, students may receive **instruction on the ethical and responsible use of AI tools**, including discussion of potential risks, limitations, safety considerations, and bias that may exist within AI systems.

The goal of this instruction is to help students understand **how to use these tools to support their thinking and learning**, while developing awareness of responsible and ethical technology use.

### Parent/Guardian Choice

EBA respects and values that families may have different preferences regarding the use of AI-supported tools.

By signing below, I am choosing to **opt my child out of the use of AI-supported tools and instruction related to AI use during EBA sessions.**

I understand that:

- My child will **not directly use AI-supported learning tools during sessions.**
  - My child will **not receive instruction on how to use AI tools** during EBA sessions.
  - AI tools may still be used **by the instructor for instructional planning, lesson preparation, development of learning materials, administrative tasks, and data organization or analysis.** These uses support instruction but **do not involve the student directly interacting with or being instructed in the use of AI tools.**
  - Alternative instructional supports will be provided when possible.
